Every educator, checked **by people**

Software matches. Humans verify.
Before an educator can receive a single offer, our compliance team checks:

Registration: VIT, NESA, QCT and other state authorities, or ACECQA/ES qualifications

Child safety: current state check plus a signed declaration

Right to work

References: two professional references, contacted and reviewed by a recruiter

We re-check before anything expires. You can also see when and how a registration was last verified with **"Verified by I Recruit"**, with the educator's consent.

● **Everywhere.** Cities, regional towns and remote communities, Australia-wide.
